## ELECTROMAGNETIC RADIATION AND HEALTH: EVIDENCE, DIAGNOSIS AND MANAGEMENT FRIDAY 7 MARCH 2014

**Venue:** Hallam Conference Room, Hallam St, London W1W 6JJ

0900: Registration

0930: Dr Damien Downing:	Welcome from the BSEM President
Rachel Nicoll	Introduction to the day
Professor Denis Henshaw:	Electric and magnetic fields and health
Alasdair Philips:	EM radiation - what does it all mean for the layman?
Michael Bevington:	EM radiation: the political and legal scene

1045: Coffee

1115: Rachel Nicoll:	EM radiation and animal studies: making sense of the evidence
Alasdair Philips:	EM radiation and human studies
Professor Denis Henshaw:	Electric and magnetic fields, childhood leukaemia and melatonin
Professor Martin Pall:	EMFs, intracellular calcium imbalance and the NO cycle

1250: Lunch

1350: Michael Bevington:	Electrosensitivity: Symptoms and impact
Dr Erica Mallery-Blythe:	Electrosensitivity: Clinical diagnosis and management and own research
Dr John Kelsey (Saferwave):	Review of RF protection approaches, devices and testing
Alasdair Philips (EMFields):	Reducing Exposure - EMF detection and remediation

1530: Tea

1600: Dr John McLaren Howard:	Biochemistry of electrosensitivity
Dr Jean Monro:	Nutritional solutions
Dr John Kelsey:	Earthing
Dr John McLaren Howard:	Earthing case study

1730 Finish
