

BIOGRAPHICAL SKETCH

YURY GRIGORYEV

Education (*degrees, dates, universities*)

1949-Military Medicine Academy in St.-Petersburg

1949-1951 - Clinical radiotherapy postgraduate

1962 - Doctor of medical science (Sc. MEd. D)

1965 - Professor - radiobiology

Career/Employment (*employers, positions and dates*)

INSTITUTE of Biophysics - Deputy Director, Main Scientific worker

(1951 - at present time)

Institute of Medico-Biological Problems - Deputy Director

(1964-1977)

Centre of Electromagnetic Safety - Deputy Director on scientific (1985 - at present time)

Centre of Bioelectromagnetic Compatibility - Director (1981-at present time)

Specialisation (*specify*)

Radiotherapy.

Radiobiology of non-ionizing and ionizing radiation.

. Physiology and neurophysiology of state.

Extremely

Honours, Awards, Fellowships, Membership of Professional Societies

1. Academic of Academy of Electrotechnical sciences of Russia
2. Chairman of Russian National Committee on Non-ionizing Radiation Protection
3. Member of Russian National Commission on Ionizing Radiation Protection
4. Deputy Chairman of Radiobiology Scientific Council of the Russian Academy of Sciences
5. Member of International Advisory Committee of WHO " International Program EMF and Health "
6. Member of board J. RADIATION BIOLOGY AND ECOLOGY

Awards. The State Scientific Prize, 1976.

Publications: more 300 papers in refereed journals, 15 books (biological effects of ionizing and non-ionizing radiation, extremely physiology)

More than 67 dissertations have been worked out and defended under my guidance. The participant of liquidation of failure on ChAES, responsible for hospitalization and treatment of patients by sharp radiation sickness (on April, 26 - on May, 14, 1986), a member of the governmental Commission in Chernobyl (15мая - on June, 14, 1986). Analytical work on biological consequences of failure.
